## ABOUT

### About Me

I'm Young Developer & Designer.  
Currently living in Minsk, Belarus.  
18 y.o. Student, Graduate June 2016.

My Passion is to Create & Design  
Simple, but Functional Websites  
Using latest Trends & Technologies  
in the Web & Design Industry.

### Motivation

I Enjoy the whole process of  
Developing & Designing.  
My goal is to become  
very good in it,  
Be able to realize my ideas.  
Live in place I want to live.

### Why do I want to find a job?

I want to get a work because that work will help me grow up, improve my knowledge, learn something new. Work will help me understand how IT business & as a sphere in general works, so I'll be able to start something on my own. Also It's a great way to communicate with people who enjoy same things. That will strongly help me collect some amount of money to continue growing up: Continue my education - Get a Masters Degree, Take an online & a local courses, Improve English by participating in a programs abroad. Understand the world through travelling.
